PRODUCT COPY

Short: Not all speakers are created equal. Some can provide the soundtrack to your life while taking on dust, dirt, and rain. Emberton III does exactly that and more. It's not for display, it's meant to join the party, wherever the party ends up. You can chuck it in a bag, throw it in the back seat of your car, take it on a cross-country ride, or hit the beach, completely stress free. Emberton III is ready for the fast lane.

Medium: Not all speakers are created equal. Some can provide the soundtrack to your life while taking on dust, dirt, and rain. Emberton III does exactly that and more. It's not for display, it's meant to join the party, wherever the party ends up. You can chuck it in a bag, throw it in the back seat of your car, take it on a cross-country ride, or hit the beach, completely stress free. Emberton III is ready for the fast lane.

While you're busy living life to the fullest, you'll experience absolute 360° sound. True Stereophonic is a unique form of multi-directional sound from Marshall – where every spot is a sweet spot. No matter where you're standing, the music will sound vibrant, balanced and loud. Just like it should. With 32+ hours of portable playtime, and battery preservation features built for almost endless listening sessions, you can keep the music playing on repeat.

Long: Not all speakers are created equal. Some can provide the soundtrack to your life while taking on dust, dirt, and rain. Emberton III does exactly that and more. It's not for display, it's there to join the party, wherever the party ends up. You can chuck it in a bag, throw it in the back seat of your car, take it on a cross-country ride, or hit the beach, completely stress free. Emberton III is ready for the fast lane.

While you're busy living life to the fullest, you'll experience absolute 360° sound. True Stereophonic is a unique form of multi-directional sound from Marshall – where every spot is a sweet spot. No matter where you're standing, the music will sound vibrant, balanced and loud. Just like it should. With 32+ hours of portable playtime, and battery preservation features built for almost endless listening sessions, you can keep the music playing on repeat.

We've also updated Emberton III's design to make it more straightforward and convenient to use while staying true to its rock 'n' roll heritage. The classic grill, textured sleeve and iconic Marshall script hark back to our legendary amps with the added benefit of a built-in mic. Emberton III will go the distance and back again.

RATIONAL PRODUCT LINE

KEY SELLING POINTS

1. MARSHALL SIGNATURE SOUND

- Short:** Emberton III features Marshall signature sound with Dynamic Loudness that adjusts the tonal balance of the audio to ensure your music sounds brilliant at every volume.
- Medium:** Emberton III delivers rich, full Marshall signature sound that'll never let you down. Featuring Dynamic Loudness, each frequency is constantly adjusted when you change the volume, ensuring that the tonal balance is always right. But this speaker really gets a kick from being turned up loud. With an even bigger bass than its predecessor, it'll inject your favourite songs with a whole new level of power, especially at max volume.
- Long:** At a house party or in the park; Emberton III delivers rich, full Marshall signature sound that'll never let you down. Featuring Dynamic Loudness, each frequency is constantly adjusted when you change the volume, ensuring that the tonal balance is always right. But this speaker really gets a kick from being turned up loud. With an even bigger bass than its predecessor, it'll inject your favourite songs with a whole new level of power, especially at max volume. Emberton III never misses a chance to perform.

2. TRUE STEREOPHONIC

- Short:** Emberton III features True Stereophonic, a unique form of multi-directional sound from Marshall. Experience superior spatial and binaural sound that flows around you and fills any space.
- Medium:** Emberton III features True Stereophonic, a unique form of multi-directional sound from Marshall. True Stereophonic is stereo sound, but not as you've heard it before. Available exclusively on Marshall products, experience superior spatial and binaural sound that flows around you, filling any space.
- Long:** Emberton III features True Stereophonic, a unique form of multi-directional sound from Marshall. True Stereophonic is stereo sound, but not as you've heard it before. Available exclusively on Marshall products, experience superior spatial and binaural sound that flows around you, filling any space. Whether you're in your kitchen or on a roof top, your music gets up close and personal with Emberton III. This is absolute 360° sound, where the music finds you.

3. 32+ HOURS OF PORTABLE PLAYTIME

- Short:** Emberton III offers 32+ hours of portable playtime on a single charge, so you can keep listening all day and into the next.
- Medium:** Emberton III offers 32+ hours of portable playtime on a single charge, so you can keep listening all day and into the next. Its compact size, durability, and reliable playtime make it an essential to pack whenever you open the front door.
- Long:** Emberton III offers 32+ hours of portable playtime on a single charge, so you can keep listening all day and into the next. Its compact size, durability, and reliable playtime make it an essential to pack whenever you open the front door. When you're out of battery, just plug in your speaker and return to full charge in 2 hours. If you need a speedy top-up, plug in for only 20 minutes to deliver a playtime of 6 hours. You'll get the listening session going again in no time.

4. DUST AND WATERPROOF

- Short:** Marshall's on the road spirit lives on in our Emberton III speaker, boasting a rugged design that can battle dust and rain.
- Medium:** Marshall's on the road spirit lives on in our Emberton III speaker. It boasts a rugged and robust design that can battle dust and downpours. Emberton III doesn't mind a swim either. With an IP67 dust and waterproof rating you can submerge it in 1 m (3 ft) of water for a period of up to 30 minutes. Emberton III never lets rain or dirt get in the way of your music.
- Long:** Marshall's on the road spirit lives on in our Emberton III speaker. With its silicone exterior and solid metal grille, it boasts a rugged and robust design that can go to battle with heavy showers. Emberton III doesn't mind a swim either. With an IP67 dust and waterproof rating you can submerge it in 1 m (3 ft) of water for a period of up to 30 minutes. Whether it's a weekend festival or running through rain, Emberton III is good for all seasons.

5. BUILT-IN MICROPHONE

- Short:** Music comes first, but we know life gets busy. Emberton III now comes with a built-in microphone, making hands-free talking much simpler and clearer.
- Medium:** Music comes first, but we know life gets busy. Emberton III now comes with a built-in microphone, making hands-free talking much simpler and clearer. For the first time, you can take calls while getting your day started or preparing for a gig.
- Long:** Music comes first, but we know life gets busy. As an update to our previous model, Emberton III comes with a built-in microphone, making hands-free talking much simpler and clearer. For the first time, you can take calls while getting your day started or preparing for a gig. Catching up doesn't need to get in the way of what you're doing.

6. BLUETOOTH LE AUDIO-READY

- Short:** Emberton III is built to be Bluetooth LE Audio-ready. This future-proof technology will open a new world of audio sharing possibilities with Auracast™.
- Medium:** We don't want anything to get in the way of your music, so Emberton III is built to be Bluetooth LE Audio-ready. This future-proof technology will open a new world of audio sharing possibilities with Auracast™.
- Long:** We don't want anything to get in the way of your music, so Emberton III is built to be Bluetooth LE Audio-ready. This future-proof technology will open a new world of audio sharing possibilities with Auracast™.

MAKING OUR PRODUCTS LAST LONGER

We want everything we make to last longer. This means taking responsibility for our products throughout their lifecycle, improving features that will help prolong their lifespan, as well as using safer and more responsible materials in both product and packaging design. Our efforts in this field are ongoing, but below are some examples of improvements we're making.

Longer lifespan: We want you to enjoy your Marshall product for years to come, so we build our headphones and speakers to be rugged enough to withstand everyday wear and tear. We also design them with new features in mind so that you can get more out of them for longer. For example, our products are ready for next-generation Bluetooth LE Audio technology including Auracast™, and you can download OTA updates so that your product has the latest software. We also now offer authorised repair services (1) and spare parts for Emberton III through our website.

Materials: When switching to more responsible materials, we focus on recycled sources and better chemicals. 79% of the plastic in Emberton III comes from recycled plastic (2) made from preloved products including used electronic devices and CDs. Emberton III is also entirely PVC-free because of PVC being considered one of the most harmful plastics.

Packaging: Our packaging is designed to minimise its environmental impact. To do this, it's been optimised for transportation, we've minimised the plastic content and used materials from responsible sources. Emberton III's packaging is 96 % paper-based with a recycled content of 77 % (3). We also use vegetable oil-based inks made from soybeans instead of traditional petroleum oil-based inks.

(1) Models eligible for authorised repair services may vary in different markets. Offering and expanding our repair solutions is one of our top priorities. Visit our support page for the latest information.

(2) 27% of the product consists of plastic of which 79% is GRS certified post-consumer recycled plastic. Percentage breakdown is based on weight and excludes any plastic that can be found in electrical components due to the lack of detailed material knowledge in every component.

(3) Percentage breakdown of retail packaging is based on weight and excl. user documentation.

ABOUT MARSHALL

Marshall is a true rock legend. A distinct and expressive sound combined with an iconic stage presence that has inspired musicians and music fans around the world for over six decades. This unparalleled amount of wisdom has been distilled and fused into every part of Marshall amps, headphones and speakers. Nothing has been compromised when expanding the Marshall heritage of big stage performance to the individual enjoyment of good music.

The legacy began in a small Hanwell drum shop in the 1960s, where Jim Marshall sought to give a bunch of then-local guitarists the sound they wanted – a sound that was harder, crunchier and richer. The result was the JTM45, an amp that reverberated with a sound that was much heavier than anything ever heard before. In a twist of rock 'n' roll fate – those guitarists, much like the Marshall name, would go on to revolutionise music forever.
